DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 40, 42, 2-6, 8-11,13-15, and 19-29, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claims 40 and 42, the applicant recites that the additional profile “extends substantially over the full length of the hollow profile”, and then goes on to recite that the length of the profiles differ from each other in such a way that the hollow profile has a considerable excess at one end. The obvious question and ambiguity presented is that if the additional profile is substantially the same length as the hollow profile, how do they differ in length such that there is a “considerable excess” at one end of the hollow profile? Correction is required. Were the applicant to *properly address* the ambiguities, the claims would be in condition for allowance.

Allowable Subject Matter

Claims 38, 39, and 41 are allowed. The primary reason for the allowable subject matter of claim 41 is the inclusion of the additional profile formed by roll forming. For claim 38, it is the reason as set forth in the office action of 8-29-05. The prior art of record fails to teach or suggest the claimed features absent the applicant’s own disclosure.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

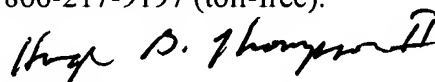

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
